

SHOT **AT HOCKEY**

**A NEW SCHOOL
PHYSICAL EDUCATION
PROGRAM DEVELOPED TO
INTRODUCE STUDENTS
TO THE EXCITING
SPORT OF ICE HOCKEY.**

**A NEW
SKATE OF MIND!**

Upon arrival students will be given a tour of the **new Daytona Ice Arena**. They will get up close and personal with the arena, from the check-in counter to the **Thaw Zone Café** and everything in between. Also included is a **behind the scenes STEM understanding** of how the ice is created and maintained including an **introduction to our DIA Zamboni machine**, which is always a huge fan favorite!

After dressing out in for hockey in full protective gear and skates, they will hit the ice and are broken into groups based on a quick assessment of skill levels. All instruction is provided by our licensed, professional DIA coaching staff who all possess coaching and playing experience at professional, collegiate/ scholastic, and youth hockey levels.

Now the real fun begins as students learn to ice skate and practice hockey specific drills. We fully expect they will fall down, get back up and begin to understand the hockey basics of skate, shoot and score a goal!

Before they head back to school, we will take a group photo as well as **give each child a practice jersey** and a **DIA gift packet** to take home for the whole family to use at Daytona Ice Arena.

Most importantly, we know they will have a lot of fun and carry **lasting memories** beyond the day. They will share the fun they had with their jealous friends. And we hope they will develop a new-found love for the sport we call “The Fastest Game on Earth.”

THE PROGRAM PROVIDES ALL PARTICIPANTS THE OPPORTUNITY TO PUT ON HEAD-TO-TOE HOCKEY GEAR AND LEARN THE BASICS OF HOCKEY AT DAYTONA ICE ARENA.

*THERE IS ALSO A TAKE A SHOT AT HOCKEY SCHOOL GYM OPTION.
LEARN MORE FROM YOUR DAYTONA ICE ARENA REPRESENTATIVE.*
